THE ANGLO-AZERBAIJANI SOCIETY

The British-Kazakh Society

“Focus on Opportunities for NE Companies in the Caspian”

Join us for a free, half-day seminar on Wednesday, 20th May in the Milburn Suite in St. James Park, Newcastle to discover the real potential for you and your company

The Anglo-Azerbaijani Society and the British Kazakh Society, have joined forces with UK Trade & Investment, to provide an introduction to the huge opportunities in this important trading region for North East companies.

Many North East companies have already received many of £10's millions worth of contracts from the significant Capital Project opportunities that this region has presented over the last 10 years. The next phases in the development of oil and gas in Azerbaijan and Kazakhstan will begin in 2010 with increasing Operational Support requirements anticipated over the next 40 years.

The Caspian Region is rapidly becoming a major new non OPEC supplier of hydrocarbons, two to three times the size of the North Sea.

Planned investments total many hundred billion dollars over several decades in Azerbaijan, Kazakhstan and Turkmenistan, and offer major sustainable business opportunities to UK suppliers and service providers.

Have you considered the region previously but thought it was too hard and difficult?

Do not have enough information to determine whether there are opportunities for your company?

Then come and benefit from the experience of our speakers and learn how to access more information to enable you to make informed decisions about the future for your company in this exciting growth region.

The event is aimed at companies both old and new to this market and provides an opportunity to network with some of the key major contractors and suppliers who export to, or have already established themselves in, the Caspian region.
